## BURGLARY

Stamford Hill is being plagued by burglary

### ADVICE

- Install CCTV, this can be quite inexpensive and is a deterrent. CCTV helps Shomrim identify the burglars and recover stolen property
- Always use deadlocks on exterior doors.
- Lock your side gate
- Don't keep valuables unsecured at home
- Use a safe if possible
- Remember, hiding places such as the master bedroom sock draw, is the first place a burglar searches
- Purchase contents insurance

**FROM A LACE-BAND TO A TICHEL**

**From a life-long heart condition to a one-off minor procedure.**

Hi, my name is K. and I want to share my story with all of you today.

When my second child was born, the doctors told us that something was wrong with his heart and in their words: "This child will need to see a cardiologist for the rest of his life." As his parents, this was very painful to hear and the thought of surgeries, and maybe even at some point, a transplant, was very scary. But I refused to accept this as the truth and I kept saying that anything can change and HaShem can do anything, but I felt that I had to accept a strong, lasting קבלה as a measure of השתדלות.

I had heard Rabbi Wachsman שליט"א speak about sheitels and deep down I always wondered about it. I had a beautiful sheitel and I wasn't married that long, my mother had bought it for me and I didn't know what she would say if I stop wearing it.

I remembered my teachers talking about sheitel length before I got married, and I was sure that I wasn't going to fall for the trap of wearing a long sheitel.

Now, I do give myself some credit because when I went to get my sheitels, I did have some of it cut off on the spot, but in the end I did listen to the dreadful words of the sheitel-machers: "Are you sure you want to cut more? Once it's cut, it doesn't grow back." The sheitel was now part of me. I needed a push. Then my son's heart issues came up. Ladies! Don't wait for a scare ח"ו in order to make a change! So, at that time, I decided that the קבלה I was going to take on was to stop wearing sheitels completely.

We met with the surgeon and guess what he told us?! He said: "Your son only needs a minor procedure! It's not life-threatening and he doesn't need multiple surgeries." It was a changed diagnosis!

The way the doctors had mapped out the story of his life for us with surgeries and maybe even a transplant was very scary.

But ב"ה today our son is completely healthy and he's developing and growing and doing very very well and I believe and I know that it was a result of our בטחון and the change from the sheitel to the tichel.

I want to clarify a few points:  
 Never underestimate the כח of בטחון – the אייבישטיק can do everything. My son is living proof of that!

Don't be worried about what everyone has to say – I was especially worried about what my family members, and what my mother would have to say and my mother actually complimented me about it – she told me I look very nice in it! It was amazing to see that turnaround because I grew up with sheitels, everyone in my family wears a sheitel and here I was getting compliments, instead of what I was worried about – being the odd one out and everything.

Keep on listening to the Connections hotline, to encourage yourself. If anyone wants to call me, they can call me on 845-367-3843 and we can give each other חידוק.

I heard a story on the hotline of someone who switched over to a tichel because of a medical scare that they had and today her son is completely healthy ב"ה. One of the reasons she chose this particular קבלה is because she is a descendant of the חתם סופר who held very strongly against wearing sheitels. I'm also a descendant of the חתם סופר and I had no idea about this and I was amazed when I discovered it!  
 Thank you for listening and you should all be זוכה to סייעתא דשמיא!

### Dear Readers

**Re: Universal Credit (UC)**

Further to the major UC investigations continuing at present, I had a special meeting last week with our local Hackney job centre managers who had absolutely NO IDEA that these investigations were indeed taking place! Quite surprising to me! As I have already previously stated, I have no evidence that this is particularly targeting our community.

Anyway, following the conclusion of your investigation, should the officer decide to reduce your UC awarded to you till now (and therefore also reducing it going forward), you should be given a choice of whether you want to accept their decision or if you wish for a 'decision maker' to look at it again. You SHOULD absolutely choose the latter option, as they are often legally wrong in their decisions. The only way you can appeal their wrong decision is by receiving a written decision in your journal, which will allow you to then request a **mandatory reconsideration** and then make an appeal - which is usually successful. The only problem is that it can take many months till it reaches an appeal, with no UC in the interim! You should seek professional advice when making an appeal as it can be quite technical.

Wishing everybody הצלחה again.

### Dear Reader

Following last week's letter regarding a mother of children evicted, I will address the quoted lines: 'Where were the askonim? Where were the Rabonim? Where were the Anshei Chesed? Just because she was only a number with nobody to defend her?'

With Stamford Hill being the bastion of Chesed, unfortunately there is a gaping void. There IS NO COMMUNITY! Organisation of 'askonim' 'rabbonim' or 'anshei chesed' to help the most vulnerable of people in our community - mothers who are on their own. Any chesed or help that is done with this population is purely coming from private individuals who are from the goodness of their heart helping out if they happen to stumble on a case and have the wherewithal to do so. The challenges Yiddishe mothers on their own face with technical matters that are part and parcel of their nisayon is not for the faint hearted.

The stress that comes along with taking care of finances, housing, all the while very often dealing with ongoing difficulty from their former husbands, and on top of it all have to look after and be mechanech their children, hold down a job, be put together on the outside, run a functioning household without a moments reprieve, cannot be adequately portrayed in words.

The toll it takes in the long term on the health and well being of the mother, which ultimately affects the children, is just one of the many concerns.

These woman are heroes. Just to put one foot in front of another, send the children to school happily and carry on their lives with dignity and fortitude takes tremendous inner strength. Yet in areas where technical help is required, they are extremely shortchanged.

Any area that needs intervention from the stronger gender, the help is non existent!!

'A nation is judged by how they treat their weak'. There are MORE than ONE HUNDRED women in this situation in Stamford Hill alone, and many more hundreds of children

affected.

Why is it that for any technical help, resources from other communities further afield have to be sourced and accessed - if lucky enough to find? And if not, these women are left hanging, broken hearted and resentful to a kehilla that has so much plenty - yet a bit of help from the right person can make a huge difference, but no help is available to be accessed without literally having to beg to a largely indifferent and oblivious kehilla?

It is time the COMMUNITY awareness is raised, that these women deserve to be treated with dignity and have full community support!

It is time for a fully functioning organisation to be set up, by yes - Askonim, Rabanim, and Anshei Chesed, to be of assistance with all issues that come up in this unfortunate situation.

For these women deserve to know they ARE part of the kehilla and help IS available for them.

Your insight on the matter of tznius concerning profile images is indeed valid, highlighting an issue that often goes unnoticed. You rightly pointed out that most widely used filters do not block image profiles. However, it's worth noting that those fortunate enough to employ the NETFREE filter benefit from its advanced capabilities, allowing it to block such content when necessary. For those unfamiliar with NETFREE, it stands out as the most sophisticated filter available, utilized by thousands in the UK and beyond.

**Let the rebbe's promise bring your yeshuah!**

**The Shatzer Rebbe's Promise Brings Back the Children**

Ari couldn't take it anymore. He tried everything in the world; still his children were distancing themselves both from him and from a Torah lifestyle. Sadly, his wife had left Yiddishkeit and she took the children along with her. A messy divorce followed. Ari fought passionately for rights to the children, hoping to be able to raise them as Torah-true Yidden. But it looked like a lost battle. He exhausted thousands of dollars in court, but those involved in the case were skeptical that he would succeed.

The date of the final court case neared. Ari already did everything possible in the technical realm, he now sought to garner spiritual assistance. Having heard of the Shatzer Rebbe's promise to help anyone who

undertook a kabbalah at his kever, Ari decided to sign up for Tehillim Kollel. Ari knew that the ehrliche Yidden who recite the entire Tehillim at the kever every day of the year would be the right messengers for his important request. Ari undertook to say the brachos with kavanah every day and he carried out his kabbalah in all sincerity.

A few days later, the judge announced his ruling. Despite the dire predictions of the experts, pointing in the opposite direction, Ari was granted the rights to his kids! With deep appreciation, Ari accepted his opportunity to raise his children in an ehrliche environment.

The remarkable promise yielded a remarkable yeshuah.

אדהל כ"ק אדמו"ר משואץ זללה"ה

*Whoever will come to pray at my grave and takes upon themselves to do a good deed, I will intercede on their behalf in the highest heavens."*

Tehillim Kollel will recite the entire seder Tehillim and daven for you the tzon for 40 days and beseech the yeshuas you and your family desire.
