## **BURGLARY** (Hackney Council Flats)

- Flats with a Mezuzah are being targeted by a prolific burglar
- Specifically targets Jewish flats for jewellery, cash and valuables
- Normally 10am/12pm and rings the bell to check if the flat is empty
- Gains entry by forcing the front door or slipping the lock if not chubbled

### **ADVICE**

- Fit a Ring doorbell camera.  
(as the Council doesn't allow CCTV)
- Replace the flimsy council front door with a solid door and good locks
- Lock away all valuables  
(not in the master bedroom sock draw)

### Dear Readers

I am writing in response to recent articles referring to motorbike collision scams.

The motorbike scam is widely known where a rider will wilfully collide with your vehicle or throw their bike down in front of your vehicle to make it look like you are the perpetrator. The scam involves a network of corrupted repair engineers and solicitors and the Police and insurers will not be on your side even if you report it as a deliberate scam. The only way to get the Police on your side is to report the incident immediately after the event before the biker gets a chance to report his own version and tell the police that you were involved in an incident where the rider drove off without identifying himself (they always keep their helmets on to hide their face) and without leaving their name and address as required by law.

Report it as a Hit & Run accident, also take pictures and try to get witnesses and CCTV from neighbouring buildings (having a dash cam is the best piece of evidence) in order to convince the insurers that you are not at fault. Just by reporting it as a deliberate collision will not make any difference as the insurers will almost every time class it as a "fault claim" status and they will pay out to the third party sometimes running into thousands of pounds.

The Police on the other hand will not take any action unless it is reported as a criminal Hit & Run incident. As to Meet & Greet at airports, there have recently been many cases where the vehicle gets

stolen whilst in their compound and the problems you face is that once you have given them your vehicle keys, your insurer will not pay for your loss, and claiming from the Meet & Greet is almost a futile exercise as they cunningly cover themselves in stating in their Terms and Conditions that they do not take responsibility on any loss.

Take your time and leave yourself enough time to park it yourself in the designated airport car park which is well secured.

On a final note, theft of vehicles are now so sophisticated as the thieves use electronic gadgetry to steal your vehicle by scanning your front of the house with a relay box in order to receive a signal from your key. Never leave your keys in front of your house overnight, use an upstairs backroom and put your keys into a closed non-metal container. There is a saying "Nothing is more powerful than an idea whose time has come."

### Dear Readers

*Do you have a mortgage or bank account with Metro Bank?*

Dear Klal Yisroel, Metro Bank has recently been purchased by a Jewish person, and they have so far refused to sign a Heter Iska. According to all Rabbonim I have spoken to this is a real problem of Ribis (either דארייטא or דרבנו) for anyone with a mortgage or a current account with METRO BANK.

If anyone know of any reason why this is not a problem, or any solution please do urgently contact

me.

P.S. we have secured a grant of £5000 which we will draw amongst those who find a solution על פי תורה that's acceptable to the Rabbonim.

Thank you and Tizkeh LeMitzvos

### Dear Readers

Attention Mosdos and people who leave גוים/גויטעם at home unattended.

I would like to draw your attention to an incident which occurred in our school a couple of weeks ago. It was after school hours and a staff member noticed that one of the cleaning ladies was heating her supper of meatballs in our oven.

Upon calling our heimishe caretaker to inform him, he was shocked, "but I tell all the cleaners that they may not touch the oven!"

What can a גוי understand about kashrus? They may think we want to keep our oven clean and they will take care not to make any mess; and even if they do understand, what importance will they attach to our ways of life?

We have now had a lock attached to the plug of the cooker so that it can only be used by a key holder. Another possibility is to provide a microwave for the גוים to use, but even so, are we guaranteed that they will not touch our cookers?

At the same time, we need to think about any other kitchen appliances that a גוי could use to cook food, such as cheese toaster, pizza maker, microwave and in some instances, even a kettle!
