Beat the heat this summer

The weather is getting hotter each year – Haringey and Hackney Councils are here to help you. Here's how you can beat the heat:

Stay hydrated by drinking plenty of fluids, and limit caffeine and alcohol

When possible, stay out of the sun between 11am-3pm

If you do go outside, cover up with suitable clothing such as an appropriate hat and sunglasses, seek shade, and apply sunscreen

Check in with neighbours, and look out for friends and family throughout the warmer months

Close blinds and curtains on windows (and external shutters or shades, if you have them) that are exposed to direct sunlight during the day

Move to a cooler part of the house, especially for sleeping

Open windows (if it is safe to) when the air feels cooler outside than inside, for example in the morning and at night, and try to get air flowing through your home by opening opposite ends to a room or space/dwelling; use both the top and the bottom parts of sliding sash windows to create air circulation of hot air escaping at the top

Use electric fans if the air temperature is below 35°C, but do not aim the fan directly at your body as this can lead to dehydration

Check that any heating is turned off and turn off lights and electrical equipment that are not in use

Go outside if it is cooler outside in the shade

If you can, consider using your boiler on a lower temperature or for less hours of the day, as hot water storage will heat up rooms and boilers will increase room temperature

Head over to the NHS for more tips and information nhs.uk/heatwave

IMPORTANT NOTICE

As part of the Pre-Summer Holiday arrangements, it is advisable whilst enquiring on necessities for the Holiday residence, e.g. Kashrus of food, Kashering the kitchen, Mikvaos etc, it is of importance to also verify that there are no Shabbos related Halachic complications in the apartment or corridors e.g. Auto-sensors that cannot be switched off or pre-programmed before Shabbos, which often is the case, and caution is needed.

The same applies to Fridges and Freezers, one must ensure that they can be opened and closed on Shabbos. Members of the Kehilla with queries, are advised to call the recently launched UOHC ELECTRICAL APPLIANCES HELPLINE 020-3137-2127 or via calling the UOHC Main Switchboard number 020-8802-6226, pressing then # and Option 2.

If upon arrival at the Holiday location there are queries, we kindly request to call ASAP and not leave it for the last minute before Shabbos.

Dear Readers & Writers

Thank you L.P. for your suggestion in tznius or any kabola toivo, however this is not a reason to diminish the segulah of r' masyo ben chorosh known for generations for which so many people are seeing

Segulas do not always have to make sense and that is why it is a segula. In fact by lighting a candle we are connecting with the tzadik and doing a toiva to his neshomo for which he sees that we get repaid in return.

Yes we should all likewise take on your kabola toivo L'ilu nishmas r' masyo ben chorosh but without depriving people from yeshuas in any other traditional way and without depriving ch"v the toivo for the tzadik

ונזכה לראות ישועות

Dear L.P.

When I read the story of the הייליגע תנא רבי מתיא בן חרש, I was amazed. What a high madreiga this תנא must have achieved. It is obvious that a segula brought in the name of a מנא who reached such a high level of קדושה must be very powerful.

This segula is brought down as a segula for easy childbirth and many people have seen big yeshuos from it. Of course 'a wants us to improve and relying on segulas should not be our modus operandi.

However, it is not our place to give mussar to the נשים צדקניות of Stamford Hill because someone needs a veshua. Let's remember that the worked his הייליגע תנא רבי מתיא בן חרש whole life to guard his eyes, he did not give mussar to others on how to conduct themselves.

Now in the summer months we can all work harder on shmiras einvim, which applies equally to ladies and

May the zchus of guarding our 5. eyes which will bring up our level of שה be a zchus for us and the entire klal visroel.

Let Your Baby Explore the World with Forward-Facing Buggies!

In recent years, prams and buggies have evolved to include an excellent feature: the ability to switch the seat to face either the parent or the world. While the option to face your baby towards you is lovely, it's crucial to understand the numerous benefits of allowing them to face forward and explore their surroundings.

Why choose forward-facing?

- 1. Stimulates Cognitive Development: Babies are naturally curious and learn by observing their environment. Forward-facing buggies offer a broader view, allowing them to see more of the world. This stimulation can boost their cognitive development and help them make sense of their surroundings.
- 2. Encourages Relaxation and Curiosity: Seeing trees, cars, and other aspects of daily life can be fascinating and calming for babies. It keeps them engaged and happy, reducing fussiness and making outings more enjoyable for everyone.
- Promotes Independence: While it's important for babies to bond with their caregivers, facing forward helps them feel more independent. It encourages them to explore new sights, sounds, and experiences from the safety of their buggy.
- 4. Enhances Social Skills: Observing people and interactions in the outside world can help babies develop their social skills. They learn to recognize different faces, column. expressions and gestures, which is crucial for their emotional growth.

Prevents Boredom: Babies who are constantly facing their parents might get bored with the limited view. Forward-facing buggies provide a dynamic and stimulating environment, keeping them entertained and curious.

All of us mothers were pushed forward in facing strollers, I wonder if today's "Bugaboo babies" are better off or are they missing out on viewing the great big world outdoors.

Happy strolling & thank you for

Mrs Twerski

Dear Readers

I'm wondering if anyone has attempted to use an Air Purifier (Hepa filters) to help with their hay fever symptoms whilst they are indoors?

I'm currently trying to research this, although they all (typically) claim to filter and improve air quality, which in turn can help for various things, including hay fever.

This can be quite costly, so before going ahead, I would like to know if anyone has any experience with using air purifiers, and can provide some feedback? This potentially seems to be a good option to ease hay fever symptoms, at least whilst indoors or during the night.

Please respond through this

Thank you.

Dovid Hamelech's Promise Changes the Diagnosis

Mordechai sank into his seat in the *beis midrash* and let out a spontaneous sigh. It had been one of the most challenging days of his life.

"What's the matter?" his chavrusa Yitzchak asked, concern evident in his voice.

Mordechai tried brushing him off, but ever a good friend, Yitzchak pushed Mordechai to share.

"I went for my routine annual physical... the doctors ordered more tests... and the results..." Mordechai's voice trailed off, unable to complete his sentence. He sighed again. "Oh... I simply don't know how to share this with my wife and children..."

At nearly 40, Mordechai was simply too young to resign to his fate. Surgery, treatments – a whole new world loomed ahead, post-diagnosis.

"Did you try Tehillim Kollel?" Yitzchak asked.

"That doesn't sound like a doctor, does it?" Mordechai replied.

It didn't take much convincing for Mordechai to agree to call in with his name so a minyan of bnei Torah would daven for him in Meron, in Ribnitz, and other mekomos hakedoshim. He asked that they have him in mind, that the treatment should be effective and that he should be able to handle the side effects.

Several days later, Mordechai went back to his doctor for more testing before beginning treatment. **He was in for a shock** – a good shock

"The growth is benign!" the doctors pronounced. With just a good dose of medication, he would feel better in no time.

Yitzchak was the first to receive a phone call with the happy news.

"You see!" Yitzchak said ecstatically. "Dovid Hamelech promises us, בצר', בצר', בער "להם, מצוקחתהם יצילם... ללהם, מצוקחתהם יצילם. When a person in pain calls out to Hashem, Hashem helps! You followed Dovid Hamelech's own advice by signing up to Tehillim Kollel... which made his words come true!"

Dovid Hamelech promises. Salvation is near.
